REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The prior art fails to disclose or suggest a glass consisting of the recited components in the recited amounts, and which has the claimed change in refractive index. The claimed composition may have been obvious. For example, the claimed glass composition may have been obvious in view of Labino et al. in view of Volf et al. as described in the previous Action. However, the prior art fails to disclose or suggest that such a glass would have the claimed refractive index change, and there is no basis for asserting that such a glass would necessarily have the recited property. Thus, claims 9 and 10, as whole, would not have been obvious.

As to claim 14, the prior art fails to disclose or suggest a method of providing a glass in an i-line stepper by providing a glass having the claimed composition.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David Sample whose telephone number is (571)272-1376. The examiner can normally be reached on Monday to Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jerry Lorengo can be reached on (572)272-1233. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
